Model 12 Compact Airless Foamer

MODEL: AF 969912-B

OVERVIEW

The Model 12 Compact Airless Foamer is a unique very low volume hose-end foam gun for diluting and applying foaming chemicals to any small or up close surface. This unit uses standard city water pressure to draw chemical concentrate from the attached bottle and blend it into the water stream. The accurately diluted solution flows through the foam wand to create a clinging, wet foam which can be projected in either a wider fan pattern or "adjusted" to a narrow pattern for longer foam throw up to 6 feet.

Key Features

- Creates clinging, wet foam which increases chemical contact time and effectiveness
- Foam provides visual confirmation of complete coverage
- Adjustable foam pattern settings for fast coverage at distances up to 6' (depending on water pressure)
- Durable! Foamer body is machined in the USA, not molded
- Outlasts and outperforms similar molded plastic products
- Quick disconnect the foam assembly to rinse
- With less than half the flow rate of competing models, you save money
- Light, 22oz chemical container reduces wrist and arm fatigue and as well as the risk of repetitive strain injuries
- No moving parts! Venturi action dilutes chemical consistently with precision metering tips
- Great performance with water pressure as low as 20 PSI
- Impact resistant lid stands up to substantial abuse

Includes

- Machined polypropylene foamer body
- 22oz wide-mouth, HDPE bottle
- Heavy-duty blue bottle lid *(red, yellow, or green optional)*
- 20 color-coded precision metering tips to set dilution ratios
- Trigger gun with quick disconnects for rinsing
- Adjustable fan pattern nozzle

Options

Stainless Steel Hose Racks

Large	# 224150
Small	# 224145

Additional Bottles

Bottle, 22oz	# 709079

REQUIREMENTS

Chemical Concentrate

Water

Temperature	up to 160°F
Pressure	20 - 100 PSI
Flow	.54 GPM @ 40 PSI
Supply Line	1/2"

APPLICATIONS

- Food & Beverage
- Agriculture/Horticulture
- Animal Health
- Vehicle Wash
- Dairy
- Food & Beverage
- Hatchery
- Industrial
- Janitorial/Sanitation
- Pharm/Bio
- Supermarkets
- And Many Other Applications!

AFCO equipment & engineering
