Portable 20 Gallon 455 4-Way Fogger

MODEL: AF 950722

OVERVIEW

The Portable 20 Gallon 455 4-Way Fogger is a chemical atomizer that uses compressed air (70 CFM @ 80 PSI) and venturi action to draw ready-to-use chemical solution from the tank on the all stainless steel cart. It atomizes the solution and projects it as fine, "dry" fog particles in 4 directions up to 35 feet. This unit features a telescoping mast and can also be used as a 2-Way fogger.

Key Features

- Atomizes chemical solutions using only compressed air
- Venturi action draws pre-diluted chemicals
- Projects fine, "dry" fog particles at distances up to 35' in 4 opposite directions
- Ball valves on 2 fogger bodies allows for conversion to 2-way fogging for narrow areas
- Variable height adjustment up to 80"
- *Optional* precision metering tips allow the user to refine the particle size
- Chemically resistant polypropylene and stainless steel components ensure durability and reliable performance

Includes

- All stainless steel 4-wheel cart with non-marking tires and stainless steel swivel casters
- Stainless steel, adjustable height fogger pole
- 20 gallon, wide-mouth, HDPE chemical tank
- 4 machined polypropylene fogger bodies
- 2 air ball valves
- 4 metering tip holders
- Two 10' chemical suction tubes and strainers

Options

Optional Check Valves to Keep Tubes Primed	
Check Valve, Chemical, PP(W), 1/4" (EPDM)	# 491401
For Lighter Fog Use Metering Tips (4 Sets)	
Metering Tips-Color Coded (10 Smallest)	# 443794

APPLICATIONS

- Sanitizing
- Agriculture/Horticulture
- Animal Health
- Dairy
- Food & Beverage
- Hatchery
- Industrial
- Pharm/Bio
- And Many Other Applications!

REQUIREMENTS

Ready-to-Use Chemical Solution

Compressed Air	70 CFM @ 80 PSI
Minimum Air Supply Line	1/2''

AFCO equipment & engineering
