

633 Compact Fogger

MODEL: AF 950001-B

OVERVIEW

The 633 Compact Fogger is a chemical atomizer that uses compressed air (3.7 CFM @ 80 PSI) to draw pre-diluted chemical solution from the attached 22 oz. bottle, atomize the chemical and project it as small to medium sized fog particles at distances up to 15 feet. Used for sanitizing, insecticide application, odor control, humidification and many other applications.

Key Features

- Portable hose-end fogger makes it easy to fog hard-to-reach areas or where fixed location foggers are impractical
- Easy to use! Just fill the bottle, connect compressed air, and press the thumb gun activator
- Atomizes chemical solutions using compressed air (3.7 CFM @ 80 PSI)
- Venturi action draws pre-diluted chemicals
- Projects small to medium sized particles up to 15'
- Precision metering tips allow the user to refine the particle size and project a lighter fog
- Lightweight 22oz bottle reduces wrist and arm fatigue as well as the risk of repetitive strain injuries
- Chemically resistant components ensure durability and years of outstanding performance

Includes

- Thumb gun
- Machined polypropylene fogger body
- Metering tip holder
- 10 color-coded precision metering tips
- 22oz wide-mouth, HDPE bottle
- Heavy-duty blue bottle lid

Options

Stainless Steel Hose Racks

Large	# 224150
Small	# 224145

Proportioning / Filling Options

1-Way Ball Valve Mixing Station (4 GPM)	# 985100
1-Way Push Lever Mixing Station (4 GPM)	# 981100

REQUIREMENTS

Ready-to-Use Chemical Solution

Compressed Air
Minimum Air Supply Line

3.7 CFM @ 80 PSI
3/8"

APPLICATIONS

- Sanitizing
- Agriculture/Horticulture
- Animal Health
- Dairy
- Food & Beverage
- Hatchery
- Industrial
- Pharm/Bio
- And Many Other Applications!
