

633 4-Way Pump Fed Fogger

MODEL: AF 950014

OVERVIEW

The 633 4-Way Pump-Fed Fogger is a chemical atomizer that receives ready-to-use chemical solution from a central chemical system. Using 15 CFM @ 80 PSI of compressed air, it will atomize the solution and project it as small to medium sized fog particles in 4 directions up to 15 feet.

Key Features

- Atomizes chemical solutions using compressed air
- Receives ready-to-use chemical from a central chemical feed system
- Projects light, "damp" fog particles up to 15' in 4 opposite directions
- Chemical needle valve to refine the particle size
- Can be factory customized into a 2-Way or 3-Way fogger
- Chemically resistant polypropylene construction ensures durability and years of outstanding performance

Includes

- Machined polypropylene ceiling manifold
- Machined 4-Way polypropylene fogger body
- Chemical needle valve
- Chemical check valve

Options

Electronic Zone Control

3-Zone PF Fogger PLC Vision Controller	# 950843
6-Zone PF Fogger PLC Vision Controller	# 950846
Zone Control Kit	# 950850
Metered Bleed Assembly	# 950852

Alternate Check Valve (Viton Standard)

TL Check Valve, PVC / EPDM, 3/8"	# 491456-E
----------------------------------	------------

APPLICATIONS

- Sanitizing
- Agriculture/Horticulture
- Animal Health
- Dairy
- Food & Beverage
- Hatchery
- Industrial
- Pharm/Bio
- And Many Other Applications!

REQUIREMENTS

Ready-to-Use Chemical Solution

Temperature	up to 160°F
Pressure	20 - 35 PSI

Compressed Air

Minimum Air Supply Line	up to 15 CFM @ 80 PSI
-------------------------	-----------------------

1/2"
