

# 1-Way FPS Transfer System

MODEL: AF 941601

## OVERVIEW

The 1-Way FPS Transfer System is a chemical transfer system for filling any sized container with chemical concentrate or ready-to-use solution. This unit uses compressed air to power a FloJet air pump which draws chemical from a bulk container and dispenses it into any other container through a 15 foot discharge hose and trigger gun.

### Key Features

- Transfers chemicals from bulk containers into any sized container or cleaning equipment safely and without mess
- Increases employee safety and labor efficiency
- Transfer chemical concentrate or ready-to-use solution
- Requires only compressed air to operate
- Pump mounted on a unique quick-release, stainless steel bracket to easily replace pumps
- The convenient positive shut-off trigger gun prevents the unit from running unattended
- Discharge hose stabilizer coupling protects pump discharge outlet from abuse
- Chemically resistant wetted components ensure years of outstanding performance with minimal maintenance
- Available for 1-5 separate chemicals
