

# Portable 2-Wheel 20 Gallon FPS Transfer System

MODEL: AF 941912

## OVERVIEW

The Portable 2-Wheel 20 Gallon FPS Transfer System is a chemical transfer system that will transport ready-to-use chemical or concentrate on an all stainless steel cart assembly and dispense it into any sized container using a trigger gun. This unit uses compressed air to power a Flojet air-operated, double-diaphragm, pump which draws chemical from the 20 gallon tank and projects it through the 25 foot discharge hose and trigger gun.

### Key Features

- Safely transfers chemicals from the tank into any sized container or cleaning equipment
- Increases employee safety and labor efficiency
- Transfer chemical concentrate or RTU solution
- 20 gallon chemical tank reduces downtime for refilling trips to the chemical room
- Requires only compressed air to operate
- The convenient positive shut-off trigger gun prevents the unit from running unattended
- Chemically resistant wetted components ensure years of outstanding performance with minimal maintenance

### Includes

- All stainless steel, 2-wheel cart with non-marking tires
- Stainless steel pump enclosure
- 20 gallon, wide-mouth, HDPE chemical tank with drain
- Air inlet ball valve & regulator/air pressure gauge
- Flojet 1/4" AODD pump with Santoprene diaphragms
- 25' discharge hose and polypropylene trigger gun

### Options

#### Alternate Air Pump Diaphragm - Santoprene Standard

Viton Diaphragm Upgrade For Flojet Air Pump	# 710756
Kalrez Diaphragm Upgrade For Flojet Air Pump	# 710755

## APPLICATIONS

- Food & Beverage
- Agriculture/Horticulture
- Animal Health
- Industrial
- Janitorial/Sanitation
- Pharm/Bio
- And Many Other Applications!

## REQUIREMENTS

**Chemical Concentrate or Ready-to-Use Solution**

**Compressed Air:** up to 4 CFM

**AFCO**  
equipment & engineering
