

# Locking Cap

for drums and totes

Durable, corrosion-resistant polypropylene, polyethylene, and stainless steel construction

Optional opening for suction line – maintain security while accessing chemical

Universal key with hole for lanyard or keychain

Tamper-resistant – designed to withstand attempts to force open with other tools

Available in 2 in. male NPS or 2 in. male buttress thread

**Options:** Add option codes to item number as shown below

	Thread Type	Cap Type
U	2 in. male NPS (FT)	Without suction opening (standard)
	2 in. male buttress (BT)	With suction opening (S)

Examples:

U-FT (Locking cap with 2 in. male NPS thread and key)

U-BTS (Locking cap with 2 in. male buttress thread, suction line opening, and key)
